Module Template

Module Description

what are we gonna do

Prerequisites

what modules do we need to know

Procedure

Here we explain the procedure of the module. This will be explained in a narrative way with the help of code snippets and diagrams.

Files (what files are we gonna use)

This content will be already procedure and just for name sake we are gonna mention it here with it's description.

Link to source code

The source codes of all modules with comments will be uploaded to github. The link to the source code will be mentioned here.
